Website Update
BPF Recycling Group

The BPF Recycling Group is the representative body for UK plastic recyclers. Formerly an independent, but affiliated organisation, the BPF Recycling Council officially became the BPF Recycling Group on the 4th January 2011 and is now a stand-alone membership group within the British Plastics Federation.

SIMPL Update
Why do we need SIMPL?

- Plastic industry accident record is worse than UK manufacturing industry average
- HSE concerned!
- HSE has called the industry to action to improve health and safety standards
- HSE’s new ‘Cost Recovery’ scheme could make a HSE inspection very expensive
- By reducing accidents there are added benefits in reduced business costs.
## New Manufacturing Sector Strategy

- Industries placed into 4 different groups

<table>
<thead>
<tr>
<th>Group</th>
<th>Basis of Grouping</th>
<th>Approach by HSE</th>
</tr>
</thead>
</table>
| A     | High hazard and control of risks unsatisfactory  
Duty-holder coherence provides routes through intermediaries to exercise influence  
Sufficient scale for return of HSE investment | Proactive intervention / inspection  
Increasing focus on role of intermediaries |
| B     | High or medium risk industries. Dispersed industries (eg small/micro-business dominated or without effective TAs) | Targeted proactive intervention (from the appropriate part of HSE) on particular processes, occupational groups or duty holders |
| C     | High or medium risk industries. Structural factors give clear role for others in H&S system (eg Trade Associations or supply chain intermediaries with influence) | Focus on role of intermediaries; Where HSE intervenes directly with duty holders it is likely to be reactive action by operational directorates |
| D     | Lower risk industries or declining industries with (relatively) few at risk | Principally reactive |
HSE

- **Cost Recovery Scheme**
  - To come into operation in April 2012

How do Companies show commitment?

• Each company will be required to sign a ‘Pledge’ to demonstrate their commitment to the initiative.

• Each signing up company will receive a certificate for display in their business.
The BPF and SIMPL

• The BPF has put together a Charter and Health & Safety Action Plan that meets the objectives under SIMPL;

• Support for businesses: BPF’s Health & Safety Committee experts
