---

**REACH** legislation entered into force on 1 June 2007 bringing with it a number of changes which have a profound impact on the plastics industry. The process for compliance is complex and the scope is broad but help is available.

Implementation of REACH is already upon us with pre-registration ongoing and the start of the registration period fast approaching.

Key questions, which will be addressed in this seminar:

♦ How will REACH affect your organisation and others in your supply chain?

♦ What is your role and obligations under REACH?

♦ How do you develop a successful strategy to deal with REACH?

♦ What impact will REACH have on the UK plastics supply chain?

Drawing on the knowledge of a range of carefully assembled experts, this event is ideal for all stakeholders throughout the plastics supply chain.

**15.45  Round up & Close**

---

**Seminar Outline**

REACH is potentially one of the most influential and complicated pieces of legislation to hit the plastics sector. This programme draws together experts from across Europe to address the impact that this significant change in EU regulation will have upon the plastics supply chain and all plastics applications in the UK. Key challenges will be highlighted and discussed. Time is allowed for networking and general discussion.

**Who Should Attend:**

This will be of interest to all companies in plastics. The event is structured for sales, marketing and product development professionals, regulatory and quality management as well as senior management.
