This one day event will explore the current trends in plastics recycling with a detailed examination of the opportunities available to boost plastics recycling in the UK. A carefully selected panel of speakers from the plastics waste and recycling sector academy and support organisations will provide their insights and share expertise in their specialist areas.

Subjects covered will include:
- Current Trends in Plastics Recycling in the UK
- Latest Developments in Sorting Technology
- Dealing with Mixed Plastics Waste
- Use of Mixed Plastics in Feedstock Recycling

This event is aimed at all stakeholders public private, with an interest in the plastics recycling sector and its products, providing delegates with an appreciation for the current and future opportunities for plastics recycling and the use of recyclate in products.
PLASTICS RECYCLING:
KEY DEVELOPMENTS

Chaired by Peter Davis

09:45  Registration & Refreshments

10.10  Chairman’s Introduction and overview

10.15  Plastics Recycling – The Current Direction
♦ The Opportunities and challenges of the future
♦ Regulatory pressures - REACH
♦ BPF Recycling Council - setting a new course

Mark Burstall
BPFRC Chairman

11.00  Tea & Coffee Break

11.10  The Plastics Recycling Industry Value Chain – An Exploration
♦ Adding and losing value in the supply chain
♦ Increasing the value of the polymer recyclate
♦ Certified, measured and traceable - a basis for product differentiation

Keith Freegard
Axion Recycling

11.45  Sorting Technology – The Cutting Edge
♦ Available techniques
♦ Sorting mixed Plastics waste

James Donaldson
Greenstar WES

12.15  NETWORKING LUNCH

13.00  What’s Next in Plastics Recycling: Challenges and Opportunities

Dr Paul Davidson
WRAP

13.30  Mixed Plastics Waste – Reuse and Applications
♦ The use of fibres in plastics, wood-plastics composites and GRP
♦ Output from SMART award - new applications

Kevin Ross
Impact Laboratories
