PRODUCTS & SERVICES

RECYCLING GROUP

With over 39 member companies, the BPF Recycling Group (BPFRG) was set up to represent the interests of UK plastic recyclers and to promote best practice in the industry.

The role of the BPF Recycling Group is to maintain a high level of visibility for the BPFRG, to manage any externally funded projects, to respond to any enquiries regarding plastics recycling and to ensure that issues of relevance to the membership are brought to their attention and that proper responses are made.

Members of this group are involved in almost every element of BPF activity as their interests in plastics are so substantial, crossing every application and issue.

The Group is actively involved in:

- Promoting the Federation as an alliance of companies from all aspects of the plastics supply chain
- Keeping abreast of the numerous legislative developments affecting plastics in all applications
- Promoting plastics in general

Recycling Group Members have been instrumental in compiling this guide and are listed on the following pages.
