British Group at Plastindia

NEW DELHI, INDIA 01-06.02.2012
Aerogen design and manufacture flame treatment systems. Flame treatment is utilised to improve adhesion characteristics of plastic surfaces, enhancing bonding and ultimately product quality. Products that can benefit from flame treatment are web substrates, automotive mouldings, blow mouldings and extrusions, prior to painting, printing, laminating, gluing or labelling.

Edinburgh Napier University
Hall 11/ A24

Napier University is the polymer processing education centre for Scotland which carries out a number of R&D projects for the polymer industry.

Address: School of Engineering & Built Environment
Edinburgh Napier University
Merchiston Campus, Edinburgh
EH10 5DT, Scotland
Tel: +44 (0)131 455 2622
Fax: +44 (0)131 455 2264
Mob: +44(0) 7714 337 523
Email: c.hindle@napier.ac.uk

Farrel Corporation
Hall 11/ B21

Farrel Corporation is the global leader in the research, engineering & manufacturing of processing equipment for the plastics industry. Our products include: CP Series II™ Compact Processors, FCM™ Continuous Mixers, Extruders, Polymer Melt Pumps and Underwater Pelletizers. The group also provides repair, remanufacturing and machinery upgrade services.

Address: Queensway, Castleton
PO Box 27, Rochdale
Lancashire, OL11 2PF, UK
Tel:+44 (0) 1706 647 434
Fax:+44 (0) 1706 719 435

Colormatrix
Hall 11/ A28

ColorMatrix is part of ColorMatrix Group Inc, global innovators in liquid colorant, additive and dosing technologies for the plastics industry. The company takes a holistic, total package approach to help its customers maximise their production efficiencies and improve both the performance and aesthetics of their products. The company was founded in 1972 and today employs over 350 personnel globally. The company has research, manufacturing and technical support facilities in Europe, North America, Latin America, and Asia.

Address: Unity Grove, Knowsley, L34 9GT, UK
Tel: +44(0) 151 632 8800
Fax: +44 (0) 151 5490994
Email: info@colormatrix.co.uk

Meech International
Hall 11/ A33

Meech has provided Static Control Solutions for over 40 years with more than 7000 customers worldwide benefiting from improved quality, productivity and profitability. Meech products are fully supported by a first-class service infrastructure through subsidiary companies in USA, Belgium, China and Hungary and a distribution network spanning 45 countries.

MSA Engineering Systems Ltd
Hall 11/ A30

MSA are the world leaders in the design and manufacture of patented wire laying systems for the production of Electrofusion Fittings used to join thermoplastic pipes. Equipment is offered for manufacturing fittings from 20mm to 1200mm (internal diameter). Also associated design consultancy services, and innovative electrofusion control equipment.

Address: 3 Assured Drive
THURMASTON, Leicester
LE3 8BB, UK

Perrite
Hall 11/ A26

Perrite are an independent thermoplastic business with offices in UK, France and Malaysia. We specialise in the supply of compounded products to the injection moulding and extrusion industries. Products are manufactured to provide a range of properties and performance, such as heat resistance, high impact, antimicrobial, reinforcement, flame retardancy, high gloss, chemical resistance and a variety of appearance effects. We assist in all stages of product development, from design, polymer selection, testing and approval to optimisation tool design and processing parameters.

Address: 1 Kingsland Grange, Warrington, WA1 4RA, UK
Tel: +44(0)1925 810608
Fax: +44 (0) 1925 840001
Email: sales@perrite.com

TransXL International Ltd
Hall 11/ A31

TransXL are one of Europe's largest suppliers/buyers of quality used plastics processing machinery. Located in Swindon, England (1hr west of London Heathrow). We have over 3,500sq m of warehouses & workshops full of used Plastics Processing equipment. TransXL specialise in: Sheet extrusion lines, Thermoforming machinery, Granulators, Extruders.

Address: Thornhill, South Marston, SWINDON, SN3 4TA, UK.
Tel: +44 (0) 1793 827666
Fax: +44 (0)1793 823826

Zotefoams plc
Hall 11/ A29

Zotefoams manufactures a range of closed-cell crosslinked foams using a unique, environmentally friendly, clean, nitrogen expansion process that produces high quality, pure, inert foams with uniform cell structure and regular cell size. Zotefoams materials are used in a variety of markets including sports and leisure, packaging, transport, aerospace, healthcare, building, marine and military.

Address: 675 Mitcham Road, CROYDON, CR9 3AL, UK
Tel: +44 (0) 20 8664 1600
Fax: +44 (0) 20 8664 1616

**Algram Group Ltd**

Hall 11/ B23

Algram Group Ltd has over 40 years experience in tool making/procurement, injection moulding, thermoforming, finishing and assembly in every conceivable product category including automotive, electronics, aerospace, medical and telecommunications. We have a Class 100,000 Clean room for injection moulding/assembly for component manufacture to the Medical sector. Since 1996 Algram is the UK subsidiary of the Olympus/KeyMed company. We hold ISO 9001:2008, ISO 14001:2004, ISO TS 16949:2009 and ISO 13485:2003 certificates.

**Colourtone Masterbatch**

Hall 11/ B23

Colourtone Masterbatch is one of the leading UK independent masterbatch producers. Founded in 1996, Colourtone Masterbatch has built up a reputation for innovative, high quality products with a high level of technical and commercial support. Our patented Vynacol masterbatch is globally recognised as a unique, trouble free product for colouring PVCu.

**Address:** Newport Road, Bedwas, CF83 8YE, UK

**Silvergate Plastics**

Hall 11/ B23

Silvergate is the leading UK manufacturer of Colour and Additive Masterbatches for plastic moulding, extrusion, sheets and films. Our products improve UV resistance, antimicrobial properties, prevent fungal attack and supply many other features such as anti counterfeitt materials. Product portfolio includes also natural coloured polymers.

**Address:** Unit 53, Clywedog Rd South, Wrexham Industrial Estate, Wrexham, LL13 9XS, UK
