INFORMATION ON UK EXHIBITORS
Aerogen

Aerogen is a “flame treatment” specialist manufacturer of industrial gas burner systems, for enhancing the adhesion qualities of plastics. This technology offers process and economical advantages when coating plastics with paints, inks or adhesives.

info@aerogen.co.uk | +44(0) 1420 837 44 | www.aerogen.co.uk

British Plastics Federation

British Plastics Federation (BPF) is the leading trade association of the UK Plastics Industry, representing over 400 members including material suppliers, polymer producers, recycling and machinery manufacturers. All members are listed at www.bpf.co.uk. We also host a plastics professionals network www.plastbook.com and on-line plastics encyclopedia www.plastipedia.co.uk.

Cinpres Gas Injection

Cinpres is the leading supplier of gas and water assisted moulding technology and equipment, including a wide range of process technologies, gas preparation systems, gas/water controllers, gas nozzles and global process support.

enquiries@cinpres.com | +44 (0) 1606 839 800 | www.cinpres.com

Engineering Plastics Ltd

Engineering Plastics Ltd manufactures machined components from a wide range of materials, specific to your application:

- Nylons / High Performance Nylons
- Polypropylene
- Polyethylene’s
- Polyurethane’s
- Specialised Products
- High Performance Conveyor Rollers

We also offer innovative Engineering Solutions, plus Cutting services.

Farrel Ltd

lkucerova@farrel.com | +44 (0) 7106 837350 | www.farrel.com
### Hardie Polymers

Hardie Polymers are a leading UK based Independent Plastics Distributor, offering a complete range of Engineering & Commodity thermoplastics. Now with local representation and warehousing in India, Hardies supply high quality, competitively priced polymers and additives on a regular and consistent basis to all our Indian customers.

- rangarajan@hardiepolymers.com  |  📞+91(0)944 4068515  |  www.hardiepolymers.com

### IDT Systems Ltd

IDT Systems Ltd supply a 3D surface decoration system for moulded parts in consumer electronics, automotive and sports markets. It's digitally driven, allowing high resolution images, and the ability to add-value through customisation/personalisation.

- peter.woodd@idt-systems.com  |  📞+44(0)1252 726 080  |  www.idt-systems.com

### Impact Solutions

Impact Solutions create world class competitiveness for clients around the globe by delivering leading edge performance improvements and product innovation linked with training and skills development:
- Frontline optimisation projects
- SMART Systems & Tools
- Investing in people
- Innovation & new technologies

- info@impact-solutions.co.uk  |  📞+44(0)1324 489 182  |  www.impact-solutions.co.uk

### JSP Ltd

JSP Ltd is internationally recognised as the leading independent Personal Protective Equipment manufacturer, JSP is totally dedicated to manufacturing a broad range of equipment designed to give people the protection they need in their lives and workplace. For more than 40 years, JSP has been synonymous with innovation, quality and reliability.

- james.johnstone@jsp.co.uk  |  📞+44(0) 1993 824000  |  www.jsp.co.uk

### London Metropolitan University

London Met is the UK’s leading university for polymer engineering qualifications at all levels. Working with industry, it provides training and consultancy through its polymer processing and characterisation facilities and latest rapid prototyping technologies.

- alison.green@londonmet.ac.uk  |  📞+44 (0) 20 7320 1882  |  www.polymers.org.uk
NDC Infrared Engineering Ltd

NDC manufactures on-line thickness and weight measurement and control systems for plastic sheet extrusion and converting applications. Our ‘TDi’ (total distributed intelligence) systems combine sensors, scanners and control interfaces to optimise production and quality.

sales@ndcinfrared.co.uk | +44 (0)1621 852 244 | www.ndcinfrared.com

Trans XL International Ltd

TransXL International Limited are one of Europe’s largest suppliers/buyers of quality used plastics processing machinery. Located in Swindon, England (1hr west of London Heathrow). We have over 3,500sq m of warehouses & workshops full of used Plastics Processing equipment.

TransXL specialise in: Sheet extrusion lines, Thermoforming machinery, Granulators, Extruders.

sales@transxl.co.uk | +44(0)1793 827666 | www.transxl.co.uk

Zotefoams

Zotefoams is the world’s leading supplier of closed cell, cross-linked block foams, renowned for their consistency and purity and manufactured from polyethylene, EVA copolymers, and engineering polymers such as PVDF and polyamide.

info@zotefoams.com | +44(0) 208 664 1600 | www.zotefoams.com

SUSTAINABLE MANUFACTURING:
A FORUM FOR THE PLASTICS INDUSTRY
AT PLASTIVISION 2011

BOMBAY EXHIBITION CENTRE, NSE EXHIBITION
GROUNDS, GOREGAON, MUMBAI, INDIA

A FREE event to showcase global experts in Sustainable Manufacturing

THE PROGRAMME

Chair: Paul Jukes, President, British Plastics Federation

2.00 Chairman’s Introduction

2.05 Sustainable Manufacturing in Plastics: An Overview
Philip Law, BPI

2.15 Strengths of the UK and Anglo-Indian relations
UK Trade and Investment, Mumbai

2.30 Innovations in Sustainable Manufacturing in Plastics Processing
Peter Davis, BPI

2.30 Incorporating the use of Recyclate into Product Design
Use of plastics to widen participation in cricket
Michael O’Brien, London Metropolitan University

3.00 The Effective Reuse and Application for Mixed Plastics Waste
Lea Rana, Impact Solutions

3.30 Understanding the Plastics Recycling Industry Value Chain
Fergus Harle, Harle Polymers

4.00 Upcycle the New Recycle
Peter Wood, IDT Systems

4.30 Close and Networking Session

www.sustainablemanufacturing.co.uk
