Nextool specialises in development, manufacture and service of Extrusion Tooling and downstream equipment, a professional extrusion tooling supplier. With advanced design concepts, agile equipment, highly skilled and experienced personnel and a complete after-sale service to ensure high quality. Nextool has rapidly developed into one of the leading extrusion tooling systems suppliers from China, with an excellent international reputation in the plastic extrusion field.

Rapra Limited is an international Membership-based organisation, supporting polymer sector initiatives on behalf of its Members and providing Members with privileged access to world-class research, technical and information services in plastics and rubber. Rapra offers a Membership package developed specifically for companies in China supported by the Shanghai branch with a full-time project manager Ivy Lue.

Simba International has an ongoing stream of plastic and metal materials from major producing plants supplying wide-spec, near prime and post industrial to post consumer scrap. We assist in sourcing materials and products for our trading partners whereby they could expand their market share. We are constantly seeking mutual trading partners to expand the customer base and volumes. We have recycling plants and trading offices in USA & UK, partnerships/collaborations in rest of Europe and international trading partners in India.

Zotefoams plc manufactures a range of closed cell Cross-linked Foams using a unique, environmentally friendly, clean, non-contaminating, nitrogen expansion process that produces inert foam without blowing agent residues and with a uniform cell structure and regular cell walls. Zotefoams plc products are used in a variety of markets including sports and leisure, packaging, transport, healthcare, toys, building, marine and military.

**BNL (UK) Ltd**

BNL (UK) Ltd is a designer and manufacturer of innovative plastic bearings and assemblies. Plastic bearings offer low friction, design flexibility, component integration, weight reduction, corrosion and chemical resistance, energy efficiency and ease of assembly. BNL is based in the UK with sites in the USA, Japan, Thailand and China.

BNL（英国）有限公司致力于塑料轴承和组件的设计与生产。塑料轴承具有摩擦低、设计灵活、部件整合、重量轻、耐腐蚀、耐化学性、效率高、便于装配等特点。BNL公司总部设于英国，在美国、日本、泰国、中国等地设有代表处。
