Applied Market Information (AMI) is Europe’s leading specialist market research provider for the global plastics industry with offices in the United Kingdom and the USA. AMI offers consulting services, has an extensive international conference programme and supplies statistical data and detailed listings of plastics processors in book and electronic format.

Firma C L Rye Trading Ltd., zajmująca się handlem miedzynarodowym od ponad 20 lat oraz posiadająca ponad 40-letnie doświadczenie w zakresie recyclingu tworzyw sztucznych, oferuje całościowe i przyjazne dla środowiska rozwiązania w zakresie odpadowych tworzyw sztucznych. Skupujemy oraz sprzedajemy na rynkach świata tworzywa sztuczne odpadowe, rozdrobnione, przetworzone oraz nieprzetworzone.

EPI (Europe) Ltd markets a range of additives called TDPA® (Totally Degradable Plastic Additive). These render plastic degradable and ultimately biodegradable. Major retailers around the world are using TDPA in many types of single use plastic items. TDPA is a cost effective, quality product requiring no special equipment or processing.
European Plastics News is the only monthly pan-European plastics industry magazine, reaching all of the key markets throughout western, central and eastern Europe. With its expert editorial team, EPN delivers an international perspective on the key technical and business issues impacting on the plastics industry throughout the region.
