In conjunction with...

Driving quality for a circular economy
A BPF Conference

Presentations by...

[Logos of VEOLIA, WRAP, and PlasticsEurope]
Following the outstanding success of the 2013 seminar, REPLAST returns in 2014 for the 7th annual British Plastics Federation recycling seminar, examining how to drive a circular economy and deal with the European targets. This year's event will include a thorough examination of these key issues facing the industry as well as important presentations on PVC recycling, Project Reflex and challenges facing the industry.

Featuring trade stands, panel debates and an examination of the work undertaken by WRAP on their pots, tubs and trays study this event will provide all recyclers with a comprehensive examination of the issues that matter to you and will provide important networking opportunities.

The Seminar Programme

09:40  Registration & Refreshments
10.00  Chairman’s Introduction
   Roger Baynham, Chairman BPF Recycling Group and Keith Freegard, Axion Recycling
10.30  Circular Economy and why Plastic Recycling is Essential - Richard Kirkman, Veolia Environmental
   ● The new European recycling targets
   ● Where plastics fits into this
11.10  What do we need to Recycle the Recyclable in the UK, Bernard Chase
   ● Level playing field
   ● More pull, stimulate demand side of the supply chain
   ● Easier access to risk capital
11.40  Tea/coffee break
11.55  The challenge for Plastics Recycling in the EU. Kim Christiansen, Plastics Europe
   ● What challenges face the plastics recycling industry in Europe
   ● How the European plastics recycling industry is tackling this challenge
12.30  Panel Debate - featuring Jonathan Short, Keith Freegard, Richard Kirkman and Kim Christiansen
13.00  Networking Lunch
14.00  Project Reflex, Dana Mosora, Dow Chemical
   ● Creating a circular economy for flexible packaging with innovative inks, new barrier polymers, novel packaging designs and a new automated sorting technique
   ● How Nestle and Unilever are working in collaboration to improve the recyclability of film
14.30  Lessons Learnt from the Success of PVC Recycling, Simon Scholes, Veka Recycling
15.00  End Markets for Recycled Plastics - PET Trays - Claire Shrewsbury, WRAP
15.30  Afternoon Tea/coffee break and close

Roger Baynham, Philip Tyler Polymers
Since graduating in Business Studies Roger has spent over 25 years in the plastics recycling industry, the past 18 of which have been as Managing Director of Philip Tyler Polymers. More recently he has been a Director of Environmental Recycling Technologies PLC which licenses its innovative Powder Impression Moulding process which is capable of using mixed waste polymers.

Roger is a Management Committee Member of the European Plastics Recycling Association and Chairman of the British Plastics Federation (BPF) Recycling Group. He chairs the annual BPF recycling seminars and has presented papers at plastics recycling events in the UK, continental Europe and the USA.

Kim Christiansen, PlasticsEurope
Kim joined PlasticsEurope as Regional Director North in December 2012. He holds a master degree in economics and business administration, and has more than 20 years of experience from government departments, EU-Institutions and trade associations dealing with environmental affairs, consumer affairs, CSR and sustainability. Kim previously acted as Managing Director of the Danish Association for Cosmetics and Detergent Industries for 10 years. Before that, he was Managing Director of a European Environment Agency Topic Centre on Waste Management, and Environment Councilor at the Permanent Danish Representation to the European Union. Kim is of Danish nationality, is married and with three daughters.

Richard Kirkman, Veolia Environmental
Richard Kirkman is Technical Director for UK & Ireland (water, energy, waste) and responsible for planning, construction and performance of new and existing infrastructure to which the company is committed to a £1 billion investment between 2013 and 2018. His remit encompasses the 8 operating ERF, 14 MRF for municipal and commercial recyclate and organic treatment. He also oversees the commodities team, the sale of 1.5Twh of energy (electricity and heat) and materials (1 million tonnes of recyclables and compost products). The main focus in the UK zone is Innovation and Performance focused on five main areas, namely thermal development, fuel and energy, materials recycling, water & biological treatments and the more novel approaches such as mining street sweepings for the precious metals.

Richard is an environmental engineer and joined the Veolia group via Dalkia (Veolia Energy) in 1994, heading up European Research & Development after gaining operational experience in its municipal and commercial energy recovery operations.

Claire Shrewsbury, WRAP
Claire has over 20 years experience of working in the environmental field. She has managed a number of government programmes that promote both environmental improvements and cost benefits to industry.

Claire is currently the Packaging Programme Area Manager responsible for the delivery of the packaging target under the third phase of Courtauld and developing infrastructure for mixed plastics sorting and processing in England.
