What is the future for bioplastics? This one day seminar will provide delegates with an in depth look at the current status of the bioplastics industry. With a mixture of practical case studies and technical sessions this seminar will examine all aspects of bioplastics from labelling to waste management. This is your opportunity to network, and to discover the latest ideas and thinking that you will be able to implement to improve your business and products.

THE SEMINAR PROGRAMME

10:00   Registration & Refreshments
10.25   Chairman’s Introduction - Graham Whitchurch, Solutions4plastics
10.30   Bioplastics Market Overview - Dr Terry Cooper, ARGO Group
   ● Current/future demand and growth
   ● Capacity & infrastructure
   ● Next generation feed stocks & emerging applications
11.15   Alternative Feedstocks for Polyolefins - Regina Penzo, Braskem
11.45   Tea/coffee break
12.00   Innovative Sources of Bioplastics: Case Study—Chicken Feathers, John Bray, Biorein.eu
12.30   The Use of Compostable Plastics at London2012 – Tony Breton, Novamont
   ● Compostables and the Olympics
   ● Coca Cola and biobased PET
13.00   Networking Lunch
Afternoon session to be chaired by Dr Terry Cooper, ARGO Group
14.00   Labelling and Certification - Kristy Barbara-Lange, European Bioplastics
   ● Certification schemes
   ● Labelling schemes
   ● The approach European Bioplastics would take to environmental claims
14.45   Tea/Coffee break
15.00   Bioplastics in the Waste Stream - Challenge or Opportunity? - Tina Benfield, CIWM
15.30   Bioplastics in Waste Management Policy - Peter Jones, Ecolateral
   ● Biomaterials alongside recycling and energy from waste
   ● Do they have a role in solving London’s waste issues
16.15   Round up and close

For more information visit  www.bpfevents.co.uk
Graham Whitchurch, Solutions4plastics
A degree qualified Engineer by training; Graham has been working within many areas of the plastics industry since 1984. Initially working for some major companies such as British Polythene Industries & Huntsman within engineering, maintenance & manufacturing Graham’s expertise was in the installation & commercialization of new lines.

Since 1999 Graham has worked entirely in the biopolymer industry. Initially as a Manufacturing Director for a PVOH supplier and following this, as the Operations Director for Adept Polymers. Graham was also a main board director for Stanelco plc, who supply both PVA & starch-based polymers.

Graham’s own specialty is in the material selection, formulation & processing of biopolymers. During the last few years he has travelled extensively introducing biopolymers to potential customers & running trials at customer facilities on all types of conversion equipment and therefore has a good knowledge of the market, the products & opportunities.

Dr Terry Cooper, ARGO Group
Dr. Terry Cooper is CEO of ARGO Group International, which provides specialized consulting services in chemical and polymer science, materials technology and market and applications development in North America, Europe and Japan.

Dr. Cooper is an innovative scientist, technical manager and consultant with over 44 years of achievement in worldwide polymer-related R&D, and manufacturing and market development.

Kristy-Barbara Lange, European Bioplastics
Kristy-Barbara Lange is Head of Communications at European Bioplastics and responsible for all communications measures of the association internally and externally including media relations and corporate publishing. Kristy holds a Master of Political Sciences from Heidelberg University, Germany. Before joining European Bioplastics, she worked several years in international PR-agencies with the focus on clients from the (renewable) energy and the infrastructure sector.

Peter Jones, Ecolateral
Peter T Jones was until May 2008 a Director of Biffa Waste Services Limited with specific responsibilities in external affairs and strategy development. He now operates as a freelance advisor in matters strategic relating to the waste, carbon and materials efficiency agenda. He is a member of the Chartered Institutes of Marketing, Transport, and Wastes Management, and operates in roles demanding specific skills in the development and management of change processes in sectors undergoing substantial upheaval due to competitive, regulatory, or other pressures. He qualified as an Industrial Economist and in July 2007 received an Honorary Degree from the University of Southampton as a Doctor of the University for work associated with Environmental technologies.
