- How Legionella Specifically Affects Plastics Manufacturers
- Potential Changes to the Legislation With Regards to Rainwater Harvesting, to be Brought Into Effect in 2013

15.45  Round up and close

For more information visit www.bpfevents.co.uk
Richard Bladon, Rehau

Richard has been with REHAU for more than 23 years and has worked within the Health, Safety and Environmental field for more than 20 years in conjunction with roles in Production and Administration within the two UK Factories. Since 2007 his responsibilities have extended to operations in Nordic Countries and South Africa.

Richard is a Chartered Health & Safety Practitioner, a member of the BPF Industrial Health & Safety Committee and the SIMPL Steering Committee. He has recently worked with the HSE to update the Plastic Sector Guidance and is tasked to engage with the UPVC Window Manufacturing Industry in order promote health & safety as a business benefit.

Chris Mutch, M & S Water Services

Chris began his working life at the Swiss chemical giant Ciba-Geigy. For the first eight years of his working life, Chris’s involvement with plastics was primarily into research and development for chemical plasticisers for PVC and combined flame retardant chemicals for several other polymer this resulted in Ciba-Geigy’s success with patent products such as the reo-flex and reo-plex lines.

In 1979 Chris was seconded into the Ciba-Gigey water treatment division and worked in general water treatment but more particular from 1982 in Legionella. After leaving Ciba - Giney Chris joined the American water treatment company Drew Ameroid.

In 1986 Chris moved to the UK based water treatment company Houseman but by 1988 Chris along with his good friend John Stiles founded M & S Water Services Limited and over the past 25 years have specialised in providing water treatment products and services to a number of clients throughout the UK with particular emphasis on plastics manufacturers particularly extrusion plant, injection and blow moulders. Chris became Managing Director of M & S Water Services Limited in 2009.

Kirsty Storer, Health and Safety Executive

Kirsty Welsh has worked for HSE for over 11 years. She began as a regulatory inspector in Kent inspecting agriculture, wood and food premises. Moving to Sheffield 6 years ago she worked as a regulatory inspector inspecting general manufacturing and engineering premises. She also had responsibility for inspecting docks, auditing NHS trusts and other large public sector bodies. Kirsty moved from being a general inspector in October 2009 to the manufacturing sector taking the national portfolio for the paper industry. In June 2011 she also took over the national portfolio for the plastics industry and took responsibility from HSE’s perspective for the SIMPL initiative.

Jim Wilkes, Zurich

Jim has spent his working career in the head offices of Zurich Insurance and Eagle Star Insurance concentrating on casualty risks for all sectors of the economy from SMEs to Multi National Companies. He has sat on various ABI working parties and regularly represents Zurich in meetings with regulators and others relevant to risk issues. He has a particular interest in the Risk issues, Risk Management, the role of Corporate Governance and Organisational structures in controlling risks, and the impact of compensation systems on influencing individual and organisational behaviours and responses.

Barbara Wilson, Clarity Healthcare

Barbara is a highly qualified, experienced and flexible Occupational Health, Safety and Environmental professional with a broad knowledge of all issues including relevant legislation. With over 30 years of experience, Barbara has worked in various industries and provided support at all management levels. Barbara’s experience includes all aspects of Occupational Health, manufacturing processes and participation in auditing to the relevant quality standards.
